Management's Responsibility for Consolidated Financial Statements

The accompanying unaudited consolidated financial statements, and the information in the Management's Discussion and Analysis are the responsibility of management and have been approved by the Board of Directors. The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles and include some amounts based on management's best estimates and judgments. When alternative accounting methods exist, management has chosen those it considers most appropriate in the circumstances. Management has prepared the financial information presented elsewhere in the Management's Discussion and Analysis and ensured it is consistent with the financial statements.

Dalmac Energy Inc. maintains a system of internal controls to provide reasonable assurance that transactions are properly authorized, financial records are accurate and reliable and the Company's assets are properly accounted for and adequately safeguarded.

The Board of Directors is responsible for ensuring that management fulfills its responsibility for financial reporting and is ultimately responsible for reviewing and approving the consolidated financial statements. The Board of Directors carries out its responsibility for the consolidated financial statements through its Audit Committee. The Committee meets periodically with management and the external auditors to review the financial statements and the annual report and to discuss audit, financial and internal control matters. The Company's external auditors have full and unrestricted access to the Audit Committee.

Dalmac Energy Inc.

Notes to the Consolidated Financial Statements

January 31, 2011 (unaudited)

1. Description of operations and going concern

Dalmac Energy Inc. (the "Company") was incorporated under the Canada Business Corporations Act and is listed on the TSX Venture Exchange trading under the symbol "DAL". The Company is a provider of hot oiler, hydro vac, vacuum, pressure and tanker truck services to the oil and gas industry in west central Alberta and surrounding area.

The consolidated financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to continue operations for the foreseeable future, and to realize on its assets and settle its liabilities in the normal course of operations.

On August 17, 2010, the Company completed refinancing its callable debt with a new mezzanine lender. The facility matures in one year on August 17, 2011, and as a result the debt balance has been shown as a current liability in the financial statements.

Management is of the opinion that the following developments will have contributed to maintaining the Company's ability to continue as a going concern:

- Net Income for third quarter ending January 31, 2011, of \$1,129,446;
- February 2, 2011, increased operating line of credit to \$5,000,000;
- August 17, 2010, refinanced callable debt with mezzanine financing;
- \$500,000 raised in a private placement completed in January 2010;

As at January 31, 2011, the Company was in full compliance with all its financial covenants.

2. Bank indebtedness

On October 16, 2009, the Company signed an additional revolving loan and security agreement with a secondary lender for \$2,000,000. This facility is a 366 day long term facility with interest only payments in the first year, with an option to term out over 36 months at the end of the first year, or opt for a second year of interest only after which term out will be negotiated at 24 to 30 months. Interest on this facility is Bankers Acceptance 90 Days plus 5.90%. Principal repayment can be made at any time in increments of \$100,000.

The secondary lender has taken a first security interest in select equipment, with a second security interest in all remaining equipment. The Company's primary lender subrogated their first security position on certain assets pursuant to the new revolving loan and security agreement. As of January 31, 2011, \$2,000,000 had been drawn on this facility. On December 10, 2010, the Company agreed to a second year of interest only which will expire on December 11, 2011 with the following condition. As part of the agreement, the Company agreed to make four principal payments of \$50,000 each on March 10, June 10, September 10, and December 10, 2011. As at January 31, 2011, the Company was in compliance with all required debt covenants for this facility.

On August 17, 2010, the Company completed a financing arrangement with a new primary lender consisting of a \$4,000,000 revolving operating line of credit margined on acceptable accounts receivable. The new facility, which is fixed for 2 years (expiring on August 17, 2012) carries an interest rate based on the lender's prime plus 3.75%. Extending the facility for a further term(s) is negotiable. On February 2, 2011, the Company signed an amendment increasing the \$4,000,000 revolving operating line of credit to \$5,000,000.

2. Bank indebtedness (cont'd)

Also on August 17, 2010, the Company refinanced its callable debt with a mezzanine lender. The new facility consists of a \$3,260,000, non-revolving term loan which bears interest at 24% per annum. For the first 3 months subsequent to August 17, 2010, the repayment is interest only followed by monthly payments consisting of both interest and principle. The facility matures in one year on August 17, 2011 but the payments are based on a 4 year amortization.

3. Capital management

The Company's strategy is to a) maintain a level of capital for operations and to sustain future growth of the business and b) meet the debt covenants imposed by our banking institution. The Company strives to maintain a healthy balance between debt and equity to ensure the continued access to capital to fund growth and ensure long-term viability.

The Company is subject to the following externally imposed capital requirements, from its primary lender:

- Fixed Charge Coverage Ratio of not less than 1:1 effective September 30, 2010, calculated on a cumulative 12 month rolling forward basis and tested monthly.
- Tangible Net Worth of not less than \$6,800,000, effective October 31, 2010 and tested monthly.

As at January 31, 2011, the Company was in full compliance with its covenants with its primary lender.

The Company is satisfied that it has sufficient access to capital resources for its operations and to fund the future growth of the business.

4. Share capital (cont'd)

Stock options

The Company has a stock option plan under which directors, officers and employees of the Company and its affiliates are eligible to receive stock options. The maximum number of shares issuable pursuant to the exercise of outstanding options granted under the plan shall be 10% of the issued shares of the Company at the time of granting the options. The maximum number of common shares optioned to any one optionee shall not exceed 5% of outstanding common shares of the Company and options granted under the plan may not exceed five years. The exercise price of each option shall be determined by the directors at the time of grant but shall not be less than the price permitted by the policy or policies of the stock exchanges on which the Company's common shares are then listed.

On August 26, 2010 the Company granted 306,000 options to its employees under the stock option plan. These options are vested equally over three years starting August 26, 2010. The fair value of the options granted was calculated using the Black-Scholes option pricing model. The fair value of the options was calculated using a risk free interest rate of 1.18%, the expected life of the options was five years and the expected volatility was 125%.

The total cost of options vested in the current year resulted in stock-based compensation expense and an addition to contributed surplus of \$7,779 (2010 - \$18,163).

5. Income/(loss) per share

The following table sets forth the computation of basic and diluted Income/(loss) per share:

	Three months		Nine months	
	January 31		January 31
